

# Graphene Supercapacitor Battery

## SECURE SUPPLIES OFFER:

➔ Replacement *Tesla Batteries*.

➔ *Hydrogen Products* with Graphene Batteries Incorporated into the Designs.

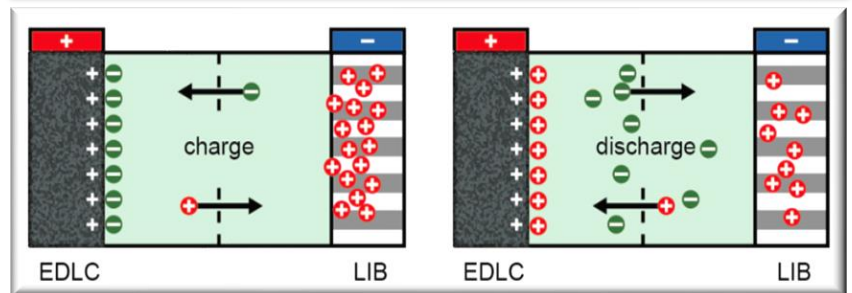

### STORE RENEWABLE ENERGY

- Solar PV
- Solar Thermal
- Wind
- Hydro
- Geothermal
- Biogas
- Natural Gas

### SOLID STATE POWER BACKUP

### DESIGNED FOR 2020 & BEYOND

## Graphene Supercapacitors

➤ Higher Energy density was always a pain point for supercapacitors (EDLCs). **Secure Supplies** uses a mixed *Lion-ion electrolyte technology* to increase the energy density of Graphene Supercapacitors up to **150Wh/Kg**, which provides *Better Energy Storage Solutions to Replace* traditional batteries.

➤ **Secure Supplies** use these Technologies for *Energy Storage*, and also to pre-start *Hydrogen Fuel* making for our Engines and Gas Turbines.

# Graphene Supercapacitor Battery

## FAST CHARGING & BIG DISCHARGING POWER

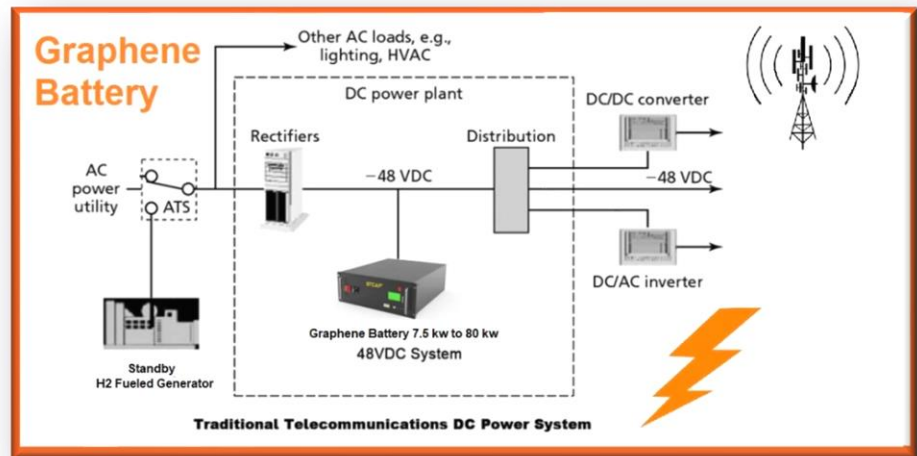

**Secure Supplies** Graphene Supercapacitor Batteries have the advantages like ultra low ESR and large current which helped to realize fast full charging in 10 minutes – perfect for vehicles and machines to increase charging efficiency, such as the electric taxi, motorcycle, golf cart, forklift, tourist car, ferry boat, etc.

### STORE RENEWABLE ENERGY

- Solar PV
- Solar Thermal
- Wind
- Hydro
- Geothermal

# Graphene Supercapacitor Battery

## TELECOM's TOWER STATION ENERGY SOLUTIONS

- **Secure Supplies** Supercapacitor Batteries have been gradually adopted by the Power Industry with their **high-reliability** discharge capability.
- Power automation applications represented by FTU have been applied and promoted by leading companies in many industries.
