

Nano-bubble Gas Technologies

Non Electrolytic Scale Remover & 100% Chemical FREE Scale Separation / Removal

Voltrolysis Descaling

Voltrolysis generates Oxidants in the water; Oxidants mitigate the Corrosion, Bio-fouling, Micro-Organism growth, Scaling, & spread of airborne bacteria in Circulating water structures.

NON-ELECTROLYTIC DESCALING:

Water Solutions...

- Organic & inorganic colour removal,
- Sewage treatment,
- Drinking water disinfection,
- Treatment of Zero discharge,
- Removal of Scales.

VOLTROLYSIS UNITS:

Removal or Scale Reduction...

- Cooling tower water treatment,
- Pre-treatment of RO (Reverse Osmosis) water feed.
- Hot and cold water system water treatment,
- Heavy metal removal.

Self Cleaning - Zero chemical water treatment system for cooling tower

Voltrolysis

With Without

100% of Water

80% of Water

20% of Water

Before Installation

After 6 Months of Installation

Secure Supplies Stanley A Meyer Voltrolysis Non Electrolytic De-scaling Calcium and Magnesium. Lithium /Gold.

Nano-bubble Gas Technologies

Voltrolysis Descaling

Secure Supplies® ventured and developed a *NON - Electrolytic Scale Remover*. It removes the scale by *Non-electrolytic* operation with **Zero Chemical**. It generates Oxidants in the water; Oxidants mitigate the Corrosion, Bio-fouling, Micro-Organism growth, Scaling, & spread of airborne bacteria.
