

Mini S1

3-in-1 Mini-S1™

MAKE H₂ + STORE H₂ + DISPENSE H₂
ON-site ON-demand – ALL H₂ Vehicles – 24 / 7

CONSORTIUM OF
TECHNOLOGY
INNOVATORS:

Mini S1™ *Hydrogen
Infrastructure...*

- Automotive Mobility applications,
- Industrial Mobility applications,

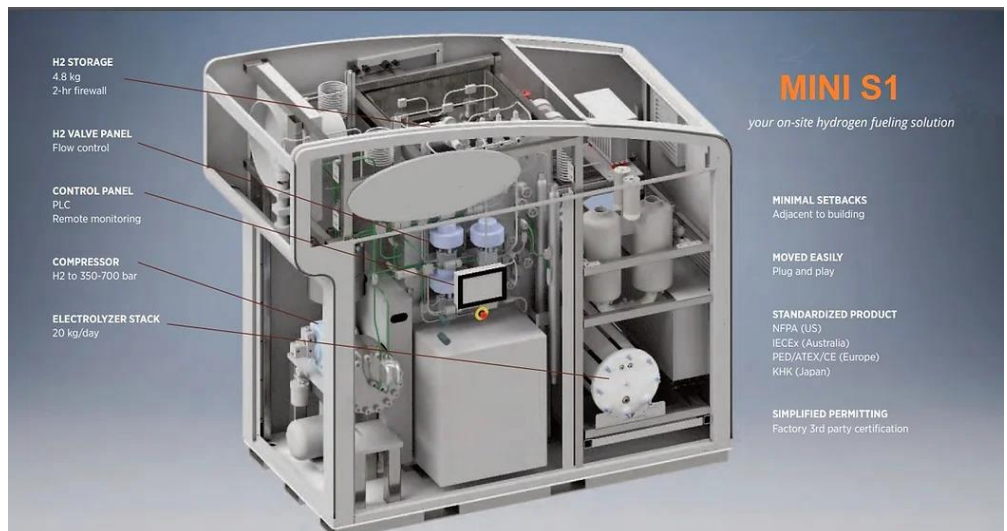

*Energy
Independence...*

- Reducing Pollution,
- Increasing Energy Efficiency.
- Creating a Cleaner Environment,
- Building a Stronger Economy through the use of Clean, Renewable Sources of Energy.

Secure Supplies a *Leader in Hydrogen Power to Gas and Gas to Power Technology*, has now Released a **Mini S1™ Step 1** kit to AID UPTAKE of Hydrogen Fueled Economies.

This means Multi Site Retailers, Gas Stations and Park Sites can now BRIDGE the GAP and roll out *H₂ Fuel Stations* more Rapidly.

This is Global News.

NEW

Mini S1™ Step 1

On-Site Hydrogen Fueling Station: Automotive-Fleet-Industrial Gas from Water on Demand for Filling

CONSORTIUM OF TECHNOLOGY INNOVATORS:

Mini S1™ *Hydrogen Infrastructure...*

- Automotive Mobility applications,
- Industrial Mobility applications,

Energy Independence...

- Reducing Pollution,
- Increasing Energy Efficiency.
- Creating a Cleaner Environment,
- Building a Stronger Economy through the use of Clean, Renewable Sources of Energy.

Mini S1™ is an *On-Site* Hydrogen Generation, Compression, Storage and Fueling appliance that uses *Water* and *Electricity* to produce **high-purity** Fuel Cell-grade Hydrogen.

Mini S1™ converts 3.8 gallons of Filtered Water into enough Hydrogen Fuel to fill one Hydrogen-powered Vehicle to travel over 360 miles.

NEW Mini S1™ Step 1

Protecting the Environment & Building a Stronger Economy

CONSORTIUM OF TECHNOLOGY INNOVATORS:

Mini S1™ *Hydrogen Infrastructure...*

- Automotive Mobility applications,
- Industrial Mobility applications,

Energy Independence...

- Reducing Pollution,
- Increasing Energy Efficiency.
- Creating a Cleaner Environment,
- Building a Stronger Economy through the use of Clean, Renewable Sources of Energy.

Mini S1™ will further the growth of a Hydrogen Infrastructure around the world, by providing a **convenient** alternative Hydrogen Fueling option for *Global Consumers* that adopt *ZERO-Emission* Fuel Cell Electric Vehicles.

Mini S1™ is a Cost-effective Fueling Solution with a **small** footprint that can make FCEV's *more accessible* to warehouses, community centers, municipalities, small fleet vehicle operations, small businesses, H2 FC-boat / yacht docks, etc.

Energy Independence...

- Reducing Pollution,
- Increasing Energy Efficiency.
- Creating a Cleaner Environment,
- Building a Stronger Economy through the use of Clean, Renewable Sources of Energy.

Commercial Terms

- Factory certification to local standards
- Transportation, civils, and Installation
- not included – site requires vent stacks,
- H2 Safety IR detector, DI water filtration
- Commissioning by Engineering team
- (estimated to be based on location)
- Lead Time for 10 kg/d or 20 kg/d: 10 months
- Lead time for S1 Mini : 12 months
- 50% down with PO, 50% prior to ship
- Ex Works / FCA Factory USA

S1 Mini		Rapid Hydrogen Fueling Station	
SimpleFuel: Ambient Fills 350 bar: 2-3 min / kg 700 bar: 8-10 min / kg		SimpleFuelFast: Fast Fills 700 bar T20/40 fills: 0.5 - 1 kg / min 350 bar T20 fills: 2.5 kg/min	
 Forklifts Buses	 Light Duty Cars	4 full 5-min fills daily • 2 morning ☀️ • 2 early evening 🌙	SSF70-20 350 or 700 bar PEM electrolyzer 20 kg/day production 40-50 kg storage 1-2 ton chiller
SS35-10 350 bar dispensing PEM electrolyzer 10 kg/day production 5 kg storage	SS70-10 700 bar dispensing PEM electrolyzer 10 kg/day production 5 kg storage		
SS35-20 350 bar dispensing PEM electrolyzer 20 kg/day production 5 kg storage	SS70-20 700 bar dispensing PEM electrolyzer 20 kg/day production 5 kg storage
